NOVICE CORNER
BY: KB9GFX

Well, the W5YI group completed its first testing session in the GREEN BAY area which was sponsored by the GREEN BAY MIKE & KEY CLUB..

It was held at St. Norberts College on December 4, 1993 and we had 4 applicants test in the following areas:

- 2 - Technician (NO CODE)
- 2 - NOVICE (THEORY ONLY)

The test session was held for the NOVICES & TECHNICIAN class only and was a tremendous success thanks to the efforts of the following W5YI VE's and ARRL VE's.

KEITH	-	N9NOF
DENNIS	-	KB9GFX
DALE	-	WB9NRK (ARRL VE)
HAL	-	N9NF
TOM	-	KB9EWK
DOUG	-	KB9GKC
LISA	-	N9VJL

Every applicant passed their respective test....
CONGRATULATIONS to the following people who tested and passed the following licenses:

- | | | |
|-------------------|---|---------------|
| 1. Mike Crowley | - | Tech no code |
| 2. Carl Krielkamp | - | Tech no code |
| 3. Linda Michael | - | Novice Theory |
| 4. Leo Keppers | - | Novice Theory |

On December 20, I received a nice complementary note from Fred Maia, W5YI which reads as follows:

" As of 1984, examination for all Amateur Radio Operator upgrade licenses are now conducted in the private sector by teams of three or more accredited volunteer examiners. Being a VE is amateur radio highest calling. The amateur community is sincerely appreciative of the efforts you and your team have put forth.

Your test package containing the required session reports forms< FCC form 610 Applications, testing fees and attachments have received and processed by the VEC office. THANKS FOR A JOB WELL DONE ! " and it was signed by Fred, W5YI, Nice job team and hope we can see more of this kind of compliments from the W5YI VEC - Program coordinator in Texas.

I sincerely hope that now we can continue this effort and begin running testing sessions opposite of Appleton and start building upon this first experience. There was great opposition with many amateurs who were of the opinion that if this was not a sanctioned ARRL effort it had no merit. I sincerely hope those skeptics will now realize that their tunnel vision is a handicapp to them and that they will join in our effort to better our

community of amateur radio operators thru the testing sessions put on by this W5YI group.

For those amateurs who will be upgrading in 1994 please make a NOTE that the testing session fee will increase from \$5.60 to \$5.75 as of January 1, 1994.

Well thats about it for now, I wish each and everyone of you a Very Merry Christmas and a most joyous and prosperous NEW YEAR.....

Until Next Issue:
KEEP HAMMING IT UP !
DENNIS KNUTSON, CVE

By January 10, 1994

The Brown County Office of Emergency Government SIREN TEST NET is activated on the 2nd Wednesday of each month at 11:50AM CST; the purpose being to evaluate the active/inactive status of each of 36 sirens located in various areas of Brown County, Wisconsin.

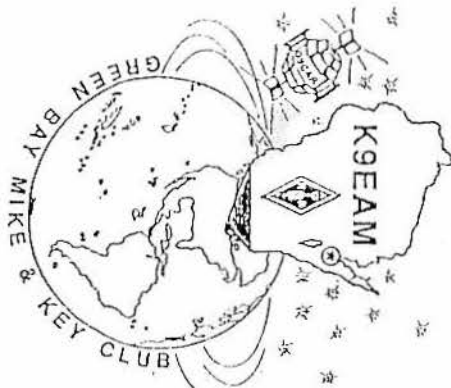

When checking into the NET, if possible, give the site number/s you will be monitoring, as this will expedite getting all stations logged promptly.
